

# MODEL FLEX DN 40/150

# SMART STEAM TRAP CUSTOM BUILT

## Description

SMART Steam Trap Custom-Built is a service package to order custom-built steam traps designed and assembled for all process applications. SMART Steam Trap Custom Built can be in different grades of stainless steel, a wide range of sizes and pressure classes, and flanged ends extended to fit exactly in the same place where the current steam trap is installed.

Since we flexible in our approach, we can offer cost-effective solutions per your requirements, no matter if it's a single steam trap or multiple orders. We believe that time is the essence when it comes to replacing process steam traps in a manufacturing facility. Therefore, we strive to deliver your order from the concept to the finished product in less than 4 weeks by delivering all orders worldwide via air express shipping in 3-5 days to any country.

## Connection and Materials

Connection size: DN40 (1.5") - DN150 (6")

Flange standards and class: Flanged BS EN 1092, PN16 - PN100 ASME B16.5, 150 - 1500

Steam trap body: SS304L or order specification

## Application and Capacity

All process applications, like all kinds of heat exchangers, where condensate must be removed immediately after it forms, with condensate load capacity from 1500 kg/hr (3300 lbs/hr) to up to 150 000 kg/hr (330 000 lbs/hr).

## Benefits

- All stainless-steel construction without any moving parts
- Maintenance-free
- Removes condensate continuously
- Unique product designs built just for you
- Service available for clients worldwide
- Technical advice from knowledgeable engineers
- Cost-effective, customized, and single-unit availability
- Worldwide air express shipping in 3-5 days to most countries
- Fast order fulfillment between 2-3 weeks
- Supporting documentation, test certification per requirements, and product drawing
- Comprehensive after-sales support
- 20-year product warranty

To request information, just send us your requirements and we will make one of a kind steam trap and deliver it for you to test.

## 5-Day concept delivery

If you need a SMART Steam Trap Custom Built service, we will help you every step of the way. After we receive your request, we will provide an informative quote in the next 24 hrs, and if our offer seems acceptable, we will deliver the product concept with a draft drawing in 5 days or sooner!
